Remmie, by way of this email, I am forwarding your observations to our Council Office to notify them of the flooding problems.

Given the amount of rain that we experienced over the weekend, my guess is that the drainage system was simply overwhelmed.

I will ask our staff to check the drains for any debris that might be blocking the water flow.

Subject: Rain impact on LAX area

Hi Laurie,

Due to the rain this weekend, water flooded Vicksburg, at times covering our sidewalks, and Century Blvd was practically a river. Additionally, the water couldn't drain quickly enough, so it started to get into our data center.

Have you received any updates on what failed that caused this flooding? Are DOT or public works doing anything to remediate? We would like to partner with you to advocate for the required improvements.

Remmie Maden
